

# RULERS AND PARLIAMENT BUILDINGS OF FIRST EMPIRE OF CENTRAL POWERS TO BEGIN TOTTERING

Above—Parliament buildings on famous Ring Strasse in Vienna. Below, left to right—Emperor Karl, Crown Prince Franz Josef Otto and Empress Adelaide.

As fast as one dispatch telling of unrest and incipient revolution in Austria-Hungary gets official denial from Vienna, or more often Berlin, another report finds its way out through Russia or Switzerland. It is believed in many quarters that the recurring reports indicate the dual monarchy is tottering and aching for peace. Washington, however, warns that the stories may be German camouflage.

## OGDEN MAN GOES TO WAR TO REVENGE THE BLOWS DIRECTED AGAINST HIS OWN FAMILY

"When a man sees his father in the war, one brother, then another, and finally a third, until he is the only remaining male member of his family, is it any wonder that he has a grievance against the fiendish practices of the despotic Hohenzollerns and their blood-soaked crew of cut throats?" asked Sergeant George D. McLeod, local American army recruiting officer today. "This is the case with Arthur C. Chapman of 2758 Lincoln avenue

of this city. The story came to light through Mr. Chapman's efforts to enlist in the American or Canadian army to get to France and pay back as far as he is able the bitter medicine handed to his family in Germany. He has tried three times to enlist in the American army and has been rejected by the recruiting officers because he is one-inch too short.

"Chapman has a wife and two children, one aged 3 and the other aged 1, and yet he is willing to leave his little family to the care and mercy of the government while he offers his services for the great cause we and our allies are fighting for. Truly this is a case of patriotism which puts to shame the jelly-spined tactics of some of our military slackers.

Tried in Canada.

"After Chapman was rejected by the American recruiting sergeant, which was in Seattle, he tried to get to Canada to enlist by hiding in a box car routed across the border. He was caught at Blaine, Wash., and taken out however. He has again applied for enlistment in the Canadian forces through Sergeant Fred Burnett, C. E. F., who is in Ogden, and if he is turned down in this last attempt he will write to President Wilson for personal permission to enter the fighting forces. Mr. Chapman has another brother, in France as a sergeant major of the British imperial army.

"O, for a little more of this brand of fighting blood in our young men, who can voluntarily enlist by being under 21 or over 31 years of age. This spirit would break forth if we realized we were at war. We do not know at present that we are at war, however, and probably shall not realize it until the ships come into port with our boys aboard, missing an army, a leg, or an eye, or until the trains come back to our towns with our boys back from the war, battle scarred and broken. Then America will wake up and answer the call as our forefathers did.

Must Give Men. "Americans have given freely to the first and second liberty loan campaigns and also to the Red Cross and the other charities which have developed as a result of the war. But we have given far too slowly of our men and we cannot hope to win this war without men. Money alone will not win this war. And what good is our money if we are beaten? We shall not be beaten, however. We shall win sooner or later, but why make it later? The sooner it is over, the better.

"The American standard has never been dragged in the dust or known defeat and she will maintain the same honor in this war of wars. Canada with about 10,000,000 people has given about 450,000 volunteers. We with 100,000,000 people have given only 485,000 volunteers. Why are we so slow? The answer is told in the story related above. We have not yet realized we are at war. Canada has seen her men return cut to pieces. America has not.

"At the present time there are more than 38,000,000 men under arms. Germany and her allies have about 10,500,000. It must not be forgotten that of the 38,000,000 approximately 9,000,000 are out of the war—the Russians—and are doing little to add to the great cause. Up to the present time there have been 25,000,000 killed, disabled or captured. Is it not time to stop it? The only way it can be done, unless a miracle happens, is to jump in and do our share, to stop it so effectively that our future will be safe and our victory certain.

In Great Britain the labor party, the trades union congress and the great co-operative societies, representing together not much less than half the population of the United Kingdom, are working in close alliance.

## SEVEN CHILDREN KILLED BY TRAIN

Eighteen Injured When Bus Is Driven Onto a Railroad Crossing.

BARNUM, Minn., Feb. 1.—Driving squarely into a school bus loaded with twenty-five children returning from a consolidated school near here late today, a southbound Northern Pacific train crashed through the bus, killing seven of the occupants and injuring all the others, including the driver.

William Fogarty, Alpha Harrington, Homer Staller, Mary Snooks, John, Karl and Charles Kalso, brothers, none more than 15 years old, were killed. Their bodies mangled almost beyond recognition by the wheels of the train. Gladys McCandless, Andy Doan, Mary Fogarty, John Gowan and Harold Hagen were the most seriously injured, and have been removed to a hospital at Moose Lake, where it is said they will recover. Carl Mueller, driver of the bus, was but slightly hurt.

The force of the impact derailed the two rear cars of the train, but none of the passengers was injured. As soon as the nature of the accident was learned passengers descended from the train and assisted in caring for the injured. Within a short time a special train from Carlton and one from Willow River had arrived with physicians and nurses, who dressed the injuries and hurried the children to a hospital.

The bus was a box-like affair, without windows, and Mueller said he had no chance to know that the train was approaching.

All the children who were in the accident live between this place and Moose Lake.

According to the statement of the police authorities here, the driver of the school bus is required to be flagged across the crossing at which the accident occurred, or in some other safe manner assure himself that there are no trains approaching. Witnesses said tonight that Mueller did not get out of the rig to see if the train was approaching, and as there were no witnesses in the bus, he had no opportunity to know of the approaching danger until the train struck the bus.

Several of the children who were not badly injured disappeared from the scene of the accident, and for several hours their parents were unable to find them. At a late hour tonight, however, all had been located.

The bodies of the children killed in the accident have been removed to a morgue at Moose Lake. The funerals will be held Sunday, according to present plans.

A similar accident, in which two school children were killed, occurred at Nelson, Minn., yesterday.

### WORST WINTER IN YEARS.

Snow, wind and extreme cold caused more colds this winter than in past years. Foley's Honey and Tar proved its worth in thousands of homes. Men, women and children checked colds and coughs and prevented serious consequences from exposure. It clears the passages, heals raw inflamed membranes, banishes irritation and tickling in the throat. Mrs. Edward Streve, R. 37, Clinton, O., says: "I think Foley's Honey and Tar the only medicine for coughs and colds and recommend it highly." A. R. McIntyre Drug Co.—Advertisement.

## ADVANTAGE FOR THE BEARS IN CORN

CHICAGO, Feb. 1.—Enlarged supplies of corn on western roads together with optimism in regard to peace have given an advantage this week to the bear side of the corn market. Compared with a week ago, prices this morning ranged from 1/2c decline to 1/2c advance. Oats showed net losses varying from a shade to 1/2c. Provisions gained 3/8c to 5/8c.

Notwithstanding that new storms and severe low temperatures impaired railroad efficiency east of Chicago and tended to harden values in the corn market, temporary shrinkage of industrial and shipping demand here acted as something of an offset and prevented any radical upturn in prices. By Thursday leaders in the corn trade willingly put themselves on record as saying improvement in the corn situation west was becoming plain and it was further announced that energetic measures had been taken to care for new deliveries by farmers. Thereafter prices almost uniformly sagged and the market was ruled lastly by bearish inferences as to increased likelihood of peace.

After shortage of immediate supplies had hoisted oats to new high price records for the season, the market reacted sharply. Shutting off of export demand was a noticeable factor in bringing about declines.

Peace chances and moderate buying put strength into provisions.

## KIDNAPER MAKES NEW CONFESSION

MARSHFIELD, Mo., Feb. 1.—Claude Piersol, convicted of the kidnapping of the Lloyd Keet, who probably will be removed to the state penitentiary to begin his 25-year sentence, made a new confession last night, according to Sheriff Mackey of Webster county today.

Piersol, according to the sheriff, declared that a Springfield attorney advised with the kidnapping gang even drawing up the "contract" specifying the amount each was to receive when the ransom money was paid by J. Holland Keet, the baby's father.

The confession is said to name twelve persons whom Piersol says were actively implicated in the kidnapping.

Piersol says Maxie Adams climbed through the window and passed the baby out to "Riley," who he said, was the leader. Piersol says the baby was taken directly to the home of Taylor Adams and that Mrs. Adams cared for it there.

The baby was taken to the Crenshaw home six days after the kidnapping, Piersol says, when it was reported that the authorities contemplated a

search of every house in Springfield. Piersol says Mrs. Adams never went out to the Crenshaw place and that the baby died because there was no one at the rendezvous to give the child proper attention. He said "Riley" and three others put the body in the cistern.

## HENNIG TREASON CASE WITNESS

NEW YORK, Feb. 1.—The government placed on the stand today in the trial of Paul C. Hennig, accused of tampering with gyroscopic parts for naval torpedoes, a witness who testified that Hennig had expressed the belief that "Germany will win the war and the American people made monkeys of themselves in entering the fight against the Kaiser."

He was Charles R. Harsigan, 19 years old, son of an Irish father and German mother who for seven years, until the outbreak of the war, had

lived in Germany, working as a mechanic in the Krupp gun works at Essen until last April, when he returned to the United States with his mother. His testimony was intended as proof of a motive for Hennig's alleged treason.

### SOCIALISTS BEGIN SENTENCE.

CLEVELAND, O., Feb. 1.—C. E. Ruthenberg, former Socialist candidate for mayor of Cleveland, Alfred Wagenknecht, state secretary, and Charles Baker, state organizer of the Socialist party, convicted in federal court of conspiring to hamper the army draft law, were taken to Canton today to serve a one-year sentence in the workhouse.

### FISHERIES CONFERENCE.

BOSTON, Feb. 1.—American and Canadian members of the international fisheries conference today resumed hearings at which they endeavored to learn the attitude of New England fishermen toward proposed regulations for the joint use of ports in both countries by men engaged in the industry.

PROOF POSITIVE. Lord Reading, the English statesman, said on his return from a Western tour:

"The patriotism of your west is magnificent. He who could be dissatisfied with the west would be as hard to please as the young bride."

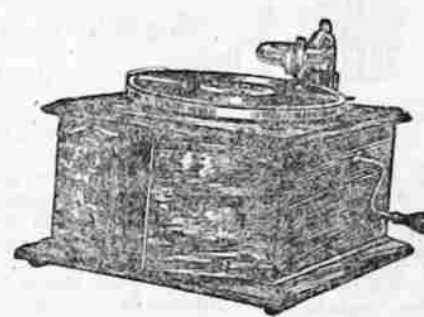

"This young bride, as her husband took her tenderly in his arms, 'night, burst into tears."

"Why do you say that?" asked Jim. "Because," she wept, "you're so jealous. Mary and Joe have only been married half as long as we have, and he's already shot at her twice in his jealousy and tried to kill himself three times!"—Washington Star.

MEMBER OF WAR COUNCIL. WASHINGTON, Feb. 1.—Harvey L. Gibson, general manager of the American Red Cross, has been made a member of the war council, succeeding John Grayson M. P. Murphy, who is signed to join General Pershing's staff.

Many women are employed at the shipyard factories of France. They are hoisted in boatswain's chairs to work on the big fabric envelopes.

## GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister, the tenderest skin.

Just massage Musterole in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

MUSTEROLE  
WILL NOT BLISTER
